

March 19, 2025

Dear Prime Minister Carney,

We, **representing over 450 organizations** from different faith backgrounds from coast to coast, including virtually representing every Muslim association in Canada, write urgently to you in relation to the following.

On Monday, March 17, Israeli Prime Minister Benjamin Netanyahu declared that his government would no longer abide by the ceasefire agreement. Within 24 hours of that declaration, the IDF bombed and killed over 400 civilians, among them more than 80 children and counting.

These attacks are as indefensible as they are bewildering; claims of self-defence can never justify the murder of 400 civilians, including over 80 children. As Canadians, we cannot witness this mass violence against civilians in silence. Canada must uphold its commitment to international law and human rights for all. The ICJ has stated the obvious: that the Israeli government's attacks in the past 16 months on Gaza have deliberately targeted civilians and that it is committing a plausible genocide. Today, the Netanyahu government has proved what everyone already knows to be true: it is not interested in peace.

We also know that the Netanyahu government's move today is supported by the Trump government. **As Canada searches for support from international allies as we face the Trump administration's threat of annexation, we know Gaza faces an even more severe threat of annexation by the same administration.**

**We cannot ask for international solidarity if we do not provide any solidarity when it is our turn.**

In response to Israel's blatant violation of the ceasefire, we, the undersigned organizations, call for Canada to:

1. Stand in solidarity with the Palestinian people of Gaza by unequivocally condemning the IDF's mass violence and US President Trump's plans for ethnic cleansing;
2. Impose Magnitsky Sanctions on Benjamin Netanyahu and his war cabinet - including the Kahanists, a listed terrorist entity in Canada, led by Ben-Gvir, for their blatant human rights violations that include using starvation as a weapon and targeting civilians and civilian infrastructure;
3. Stand loudly for aid to be able to enter Gaza, even as the Israeli government has blocked that aid;
4. Rescue Canadian family members who have been waiting for months to escape;

5. Move beyond the current one-way weapons export permit ban and impose a two-way weapons embargo; and
6. Immediately recognize Palestine as a state, demonstrating to the international community and Palestinians that Canada believes in peace and the right to Palestinian self-determination, even as the Trump administration threatens to annex Gaza (as he has threatened to annex Canada).

We are calling for Canada to stand on principle. By imposing sanctions on the Netanyahu government, Canada would simply be enacting its own commitment to uphold international law, regardless of whether the perpetrator is an ally. It is impossible to imagine that any other world leader could order the massacre of 400 civilians in less than 24 hours without facing international condemnation.

Canada simply cannot allow the Palestinian people of Gaza to endure another period of relentless bombing and starvation at the hands of the Netanyahu government. Now is the time for definitive action.

Respectfully,

National Council of Canadian Muslims
